Subject: Support and oppose.

I'll get right to it. I strongly oppose S.B. NO 16 An act addressing gun violence and juvenal crime. Although the title sounds good the bill does nothing to make any of us any safer from the simple fact that there are plenty of gun bills on the books that infringe our rights and give the advantage to the criminals. Criminals do not follow laws putting the law-abiding citizen at a severe disadvantage. None of the proposed gun control will actually accomplish anything. "being tough on crime" means enforce the laws already on the books to their full extent of criminals not giving them a slap on the wrist and letting them off. This bill will further infringe on our rights. This bill should be retitled "an act to further limit lawful firearms and ownership."

Also H.B. 5416 An act concerning bulk purchase of pistols and revolvers NEEDS TO BE STRONGLY OPPOSED AND DISCARDED! come on if a person legally wants to buy anything legal and in volume whose business is it to stop them.

HOWEVER, I would like to show strong support for the following bills: S.B. NO. 388, H.B. NO. 5415 and finally H.B. NO. 5412

The last few years have been trying times and yet the number of pistol permit applications and gun sales are through the roof. Somehow with this severe spike in guns out there is no spike in deaths or people being shot by law-abiding citizens. That in itself shows very clearly "WE THE PEOPLE" and the law-abiding citizens have spoken and are not the problem.
